

BRISTOL MOTOR CLUB

SATURDAY 23rd October 2021
CASTLE COMBE CIRCUIT

Bristol Motor Club is pleased to invite competitors to the Great Western Sprint, the longest Sprint course in the country.

Due to the impact of the pandemic this will be our 3rd attempt at the 13th year of running this event at Castle Combe Circuit in Wiltshire. Awards will recognise that the first attempt was last year in 2020.

The sprint course will be 1¾ laps of the racing circuit. The start is at the pit lane exit, the finish at Westway on the second lap. Exit from the course is via the pit lane slip road into the paddock.

Competitors are reminded that it is their responsibility to check their car thoroughly and ensure that it is in a fit state to compete, especially following any work that may have been completed recently.

Please remember that noise emissions for this event are lower than normally allowable for sprints and are limited to 105 dBA, measured at 0.5m at three quarters maximum rpm, in compliance with J.5.18.

Also be aware that there will be no convoy runs. However, to enable competitors to familiarise themselves with the course layout, they will be given the opportunity of walking or cycling the course prior to practice, but must be clear of the course by 08.30 at the latest.

The Timekeepers will be TSL. There will be a time display on the return road to the paddock and live timing on the website, but be advised that times shown on these are provisional. Times are also published live on the TSL website.

Gates to the paddock may be controlled, to only allow access to those permitted into the venue. However, unless further restrictions are applied by UK Gov, the venue, or Motorsport UK there the organisers expect that access will be allowed on the Friday evening, along with camping in the paddock. Details of all access arrangements will be in the Final Instructions.
